

M-11/9 and M-10 Collapsible Stock

Installation instructions for Collapsible Stock

CAUTION: After installation, the stock release button must be depressed to extend stock.

This stock is designed to stay locked in the closed position, unlike the original wireform collapsible stock.

Read instructions completely before proceeding. In general the procedure is to remove the existing buttstock from the Lower Receiver and insert the new buttstock.

Procedure:

- 1) Point firearm in a safe direction, remove magazine and insure firearm is unloaded and not cocked.
- 2) Depress stock release button on bottom of receiver and remove existing stock.
- 3) With new buttstock in hand, depress stock release button and slide buttstock rails into lower receiver until stock is fully seated.
- 4) To extend stock, depress stock release button and pull on stock buttplate.
There are two extended positions. Continue to pull the stock out to position it on the longer setting.
