

MAX-11and MAX-11A1

External Suppressor Gas Block

Intallation Instructions:

1) Unload M-11/9 and remove magazine. Remove lower receiver from upper receiver.

2) Place "U" shaped piece on top of receiver , in front of rear sight. The sides should over hang onto the lower receiver.

3) Put a small dab of blue Loctite on the #4-40 button head screw. Place threaded rectangle piece in front of "U" shaped piece and place screw through rear sight peep hole. Thread screw into threaded rectangle piece, but leave loose.

4) Install MAX-11 Upper Receiver onto Lower recevier. Push Suppressor Gas Block assembly firmly down and tighten screw lightly, but tight enough to hold in place.

Note: The External Suppressor Gas Block is not compatible with the MAX-31 or MAX-31A Upper Receiver.
